The game was called in the tenth inning on account of darkness after the teams had battled to a tie. Final score: Yankees 100 100 010 0—3 8 0. Giants 100 000 300 000 0—3 8 1. Batteries: Yankees Shawkey and Selang; Giants Barnes and Snyder.

FIRST CUT WEED IS CURING RAPIDLY

The U. S. Department of Agriculture's summary of weather and crop conditions for the past week as issued from the weather bureau, at Louisville, is as follows:

High temperature during the most of the week hastened maturity of late tobacco and corn; but caused such rapid drying of the soil that there was little improvement in condition. Cutting of both crops proceeded rapidly. Most tobacco in the southern counties has been cut, but considerable burley is still in the field.

The long period of dry, warm weather has caused the first cutting of tobacco to cure rapidly, with a good color and without damage from sweating. Some of it is about ready to strip. Early corn in shock is well dried out and some is dry enough to crib. The week was too hot and dry for late potatoes which range in condition from poor to fair in most localities. In most of the crop the plants are still green, but are small and are not doing well. Some of the earliest planting are being dug with light yields. The weather was favorable for completing the harvest of cowpeas and alfalfa hay and for filling silos. The few scattered showers reached only a small area and plowing is being seriously delayed by dry soil.

What seeding has been done, mostly of cover crops, has been accomplished under unsatisfactory conditions as to drilling and germination. But little wheat has been sown. Pastures continue poor in most localities having lost most that was gained from the recent rains. Except plowing and seeding, which await rain, farm work is well advanced. Conditions were favorable for gathering and marketing fruit.

COAL DEALERS SEE BUYERS' STRIKE

(By Associated Press)

Frankfort, Ky., Oct. 5.—Kentucky retail coal dealers are fighting the buyers' strike, according to R. A. Watson, of Louisville, president of the Kentucky Retail Coal Dealers' Association which met here today. He said the consumers are refusing to buy coal at the prevailing prices and dealers are not able to lower the prices as long as coal costs as much as it does now at the mine. Governor Morrow, however, in addressing the meeting, said the present high coal prices are due to abnormal demand. He asserted that when the coal car supply is increased prices are "bound to come down." If prices are "not lowered," said the governor, when the car supply is increased "then something must be done."

EDITORIALS

One of Mr. Wilson's friends says that "Tumulty is a dead issue." The Tumulty and the shouting dies.

It is to be hoped that "the next war" in Europe can be delayed long enough for all the premiers, chancellors and ex-emperors to write their memoirs of the last war.

The strikes, it is said, cost the public two billion dollars; the soldiers' bonus is estimated to cost us seven billions; and the Democrats say the new tariff will cost another three billions. At this rate it won't be long until our national anthem is "Our country, 'tis of thee, sweet land of penury."

EASTERN GIRLS SEE CHAMPIONSHIP

With girls coming to the Eastern Kentucky State Normal School from all parts of Eastern Kentucky, who really know that game called "basketball" it is being whispered everywhere that things are pointing toward "championship." The girls' basketball team at Eastern is only in its third year but material for a winning team is so good it is believed the dark horse of two seasons will come to the limelight and for distinctive notice, too. Practice will begin Tuesday afternoon and Miss Katherine Hammond, head of the Physical Education department for women and coach, will schedule games just as soon as possible.

Twenty-five girls were out for physical examination Thursday afternoon. Miss Glenna Wood, captain of the Ashland "Kittens", who won the state championship at the meet held in Lexington at the close of the season in 1922, is at Eastern and ready to play forward again on the championship team. With her is Miss Margaret Barber, who played guard with the "Kittens" last season. Both girls have speed, accuracy and five years of experience with three years on the first team. Miss Margaret Crockett, guard of the Sardis Hi team of last year, which was defeated only by Ashland in the state meet, is now anxious to begin to practice with the girls who helped take the championship cup away from her. Miss Marshall Fowler and Miss Kate Huff are two others from Sardis who are promising material.

Miss Dorothy Terrill, with two years' experience on the Madison Hi team as guard, will undoubtedly secure herself a place on the first team altho opposition for all positions will be strong. Miss Carolyn Rice, altho not having as much experience as some of the others, is a local girl who will prove valuable later in the season.

Everyone is expecting to see some fine work from Miss Sara Bright, who had two years on Stanford Hi team. Miss Edna Rankin, of Cumberland College five, is at Eastern and ready to do as good work on this team as she did for Cumberland. Many of the others will demand notice when practice and real work begin.

EASTERN TO PLAY TRANSY FRESHMAN

The Eastern Kentucky State Normal School football team under Coach George Hembree is doing fine work every afternoon this week to be in readiness to meet the Freshmen team from Transylvania College. They will meet on the local field Saturday afternoon at 3 o'clock. It is reported that the Freshmen team is stronger than Transylvania's first team has been in some past years and will afford a lively contest for many colleges throughout the state this season. This team has made such a good impression that a special coach has been secured for it. To have a special coach for the first year team is something new at Transy.

Coach Hembree will use practically the same line-up as was used Saturday against the Wesleyan team but all men are in much better condition. This is the Freshmen's first game but they are expected to put up a contest of interest. Coach Hembree stated that his new men were especially good last Saturday and he expects them to do some good team work in the coming game.

Word, who has been in a military school for the past three years, will be used as guard in Saturday's game. He will probably replace Triplett. Covington developed the "charley horse" in the last game and has been out this week, and may not be in the game. Mainous probably will replace him at end. The back field will be the same as against Wesleyan.

If the Freshmen prove easy, Coach Hembree will try out the entire squad to locate his material which will meet the Freshies from the University of Kentucky on the local field Saturday, Oct. 14.

Numbers have been given each man and everyone can be identified as follows: Harris; 2 Elam; 3 Stone; 4 Tipton; 5 Word; 6 Powell; 7 Brown; 8 Flannery; 9 Moberly; 10 Holt; 11 Potter; 12 Jayne; 13 Hurst; 14 Long; 15 Triplett; 16 Norton; 17 Covington; 18 Stephenson, Capt.; 19 Farmer; 20 Mainous; 21 Spencer; 22 Carr; 23 Jennings; 24 Baker.

A commission from the British government will sail for the United States during the middle of this month to pay or refund the war debt of four billion dollars.

Not Our Joe Kelly

It was Joe Kelly from the country not Joe Kelly from the town who was convicted of violating the prohibition laws in circuit court Tuesday. Friends of the town Joe Kelly have been "razzing" him considerably, but he's taking it good naturedly.

Cover Crops

If the cover crop hasn't been seeded in September this in the month for it to be done. Rye seems to be one of the best crops for this section of the state and now is a good time to seed it.

Rockcastle and Madison Counties should seed thousands of acres to this crop this month. It's money to the farmer who sows. This crop keeps land from washing, furnishes grazing in the fall and spring and adds much humus to the soil when turned under.

We must maintain our soil fertility by taking care of the soil now.
